Greetings:

My name is Nikita Samuelle and I am the executive assistant for our Director of Public Safety. In this email I will cover a few things with you as we move forward to schedule your event.

First of all we are a crime prevention Public Safety 501c3 agency. We provide a number of free crime prevention seminars per year however we do incur expenses both for our agency and for these events. That being said, we welcome and encourage donations or contributions to help in this mission.

We perform several vital crime prevention public safety services that most police departments do not perform and surprisingly to citizens that most police officers have not been trained or required to perform. We also both work with police departments and train police officers in crime prevention. Our goal is to make you and those you care about as safe as possible by putting the public back in public safety because it is a fact that police officers cannot do it all alone.

Please visit our website which is www.publicsafety411.com and click the button that says "Fact Sheet: Protect and Serve". It will give you a summary of what police departments are required and not required to do. The public is largely unaware of these facts which causes citizens to expect the wrong thing from our first responders.

As for the event, we do have dates available but don't wait to select a date because our calendar is filling up fast. ***Please send the name of your facility, the address, the type of seminar that you want us to conduct, the date and time requested by return email as soon as possible.***

We conduct specifically crime prevention training for women and for senior citizens and general crime prevention training for everybody. We also conduct new training seminars on human and sex trafficking. So please make your selection and send it to us with the requested information. We will then send you a confirmation of that date.

We will also construct a flyer for your event and send that as well. We encourage you to get the flyer out as soon as possible, post it on your social media and through any other available means of marketing at your disposal.

Unfortunately most citizens don't have an accurate perception of the dangers that surround them every day so most citizens don't participate in receiving crime prevention training nearly at the levels they should.

Our instructor will need 90 minutes which includes demonstrations, video analysis and questions and answers. He will simply need a blank wall for the PowerPoint slides and we will bring both a projector and laptop.

Your crime prevention seminar is free! However we accept and encourage donations because we incur costs for our agency and the services we provide. Therefore, as for donations, checks can be made payable to: Metropolitan Atlanta Crime Commission and generally we hope for a minimum donation of \$250. Donations can also be made on our website (www.publicsafety411.com) by clicking the yellow DONATE button on the Home Page. When you return this email please let us know the amount of the donation.

Please understand what we do literally saves lives in cities where the citizens have no idea how bad the crime is, how bad the sex trafficking is and how many gangs are on our streets vs. how few police officers there are.

We support the good, dedicated and phenomenal law abiding officers out there who put their lives on the line every day. But they are severely understaffed, underpaid and often overwhelmed. And once again, they cannot do it alone - nor should they have to.

If you have any questions please email me. I will await your response with the information requested above. And thank you in advance for stepping up to make your community safer while we put the "public" back in public safety.

*Sincerely
Nikita Samuelle
